SUMMARY

Recent BS Information Technology graduate with a strong foundation in frontend development, responsive web design, and UI/UX. Built web applications through internship and academic projects using React.js, Next.js, JavaScript, and TailwindCSS. Passionate about creating user-friendly applications while continuously learning modern web technologies.

PROFESSIONAL EXPERIENCE

Ollopa Corporation - Frontend Developer Intern (OJT)

React.js, TypeScript, Tailwind CSS

- Participated in proposing a redesigned UI/UX for the FibeI Digi E-Cards website, with the team's design selected by the company for implementation.
- Developed responsive frontend pages by translating approved Figma prototypes into code for the Contact, About, Anniversary, and Admin Panel pages.
- Collaborated with designers and developers to refine layouts, maintain design consistency, and improve website usability.
- Coordinated a team of interns by monitoring task progress, attendance, daily deliverables, and project updates.
- Assisted with project coordination by responding to team inquiries, compiling progress reports, and facilitating communication between interns and supervisors.

PROJECTS

AncesTREE - Capstone Project (Frontend Developer | UI/UX Designer)

Next.js, React.js, TailwindCSS, Node.js, Express.js, Firebase

- Designed wireframes and high-fidelity UI prototypes in Figma for a collaborative genealogy web application.
- Developed responsive frontend interfaces and reusable React components using Next.js and Tailwind CSS.
- Implemented features for creating, managing, and collaborating on personal and group family trees.
- Participated in manual testing by identifying UI issues, validating functionality, and providing usability feedback.
- Collaborated with backend developers to integrate frontend components with application services.

SKILLS

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap

Languages: JavaScript, TypeScript, Python, Java, PHP, C

Database: SQL, MySQL, phpMyAdmin

Design: Figma, Canva

Tools: Git, GitHub, VS Code, IntelliJ IDEA

EDUCATION

Bachelor of Science in Information Technology

Cebu Institute of Technology - University

May 2026
